Experience

Thewebsitemakers
Web Development Intern
2022-06-04 - 2022-08-29

As a Web Development Intern at The Website Makers, I will gain practical experience and improve my skills in modern web development. I'll work alongside a skilled team, contribute to real projects and learn about core technologies like HTML, CSS, JavaScript, Bootstrap, and version control systems.

Motion Cut
Web Developer Intern
Virtual
2023-11-05 - 2023-12-05

- Collaborated with a dynamic team at MotionCut, contributing to the development of cutting-edge web solutions.

Gained hands-on experience in e-commerce web development, successfully delivering a fully functional product page with shopping cart features.

Projects

Food Ordering System
The portfolio website will be developed using a combination of HTML, CSS, and JavaScript to create an interactive and visually appealing platform.
2022-11-- 2023-01

- Developed a food ordering system using the 'MERN Stack(MongoDB, Express, React, Node-Js) to create a seamless user experience.
- Implemented react-redux to manage state and improve the performance of the application.
- Utilized sass to enhance the user interface and create a visually appealing design
- Integrated Oauth 2.0 to enable users to log in using their Google account, providing a seamless and secure authentication process
